

“With its consistent R&D focus and geographic expansion, Murata Machinery is a leading logistics automation solutions provider in Japan and across Asia-Pacific. Providing advanced IoT monitoring system that offers preventive and predictive maintenance services, the company continuously enhances its products and solutions to align with clients’ ever-growing demands. Murata also actively showcases best-in-class logistics automation solutions in exhibitions throughout the world while expanding its business in the US, China, Hong Kong and other major markets in Asia-Pacific (Singapore, Thailand, Vietnam, Indonesia and Korea) to strengthen its brand recognition among customers and increase customer stickiness.”

MURATA MACHINERY, LTD. 2019 JAPAN LOGISTICS AUTOMATION SOLUTIONS PROVIDER OF THE YEAR

muratec
MURATA MACHINERY, LTD.

Frost & Sullivan recognizes Murata’s comprehensive, one-stop, and tailored solutions that fulfill a wide range of customers’ requirements in Japan and international markets. Amid fierce competition in Japan, the world’s third-largest economy, Murata is exploring new and exciting business opportunities, with clients from various industries lauding the company for its outstanding performance and seamless customer service support. With more than 50 years of experience, Murata enables clients to maximize productivity at a manageable cost via its state-of-the-art services. The 2019 Frost & Sullivan Japan Logistics Automation Solutions Provider of the Year Award acknowledges Murata’s extraordinary logistics automation solutions offerings and celebrates its success in Japan over the past two years.
